

**INTERNATIONAL UNION  
 OF BIOCHEMISTRY AND  
 MOLECULAR BIOLOGY**
**Joint SFRR-Europe / IUBMB / FEBS Advanced Lecture Course 2021**

The course will focus on examining how changes in redox signalling trigger adaptation and the crucial roles of key adaptive processes in preventing cellular degeneration. Participants will have the opportunity to interact frequently in a relaxed setting with prominent senior scientists in the field and to present and discuss their results in poster sessions and oral presentations. The course will also provide the participants with transferable skills training sessions and career development tutorials.

**Plenary Lecturers:**

- Enrique Cadenas (USA)
- Daniela Caporossi (Italy)
- Eric Chevet (France)
- Niki Chondrogianni (Greece)
- Ana Maria Cuervo (USA)
- Katarzyna Goljanek-Whysall (Ireland)
- Vassilis Gorgoulis (Greece)
- Tilman Grune (Germany)
- Clare Hawkins (Denmark)
- Malcolm Jackson (UK)
- Mike Murphy (UK)
- George Roth (USA)
- Juan Sastre (Spain)
- Andreas Simm (Germany)
- Nektarios Tavernarakis (Greece)
- Josep Tur (Spain)
- Holly Van Remmen (USA)
- Aphrodite Vasilaki (UK)

**Training Lecturers:**

- Michael Davies (Denmark)
- Keith Elliott (UK)
- Ferhan Sagin (Turkey)
- Valerie Vanhooren (Spain)
- Beata Vertessy (Hungary)

**Organizers:**

- Aphrodite Vasilaki (UK)
- Niki Chondrogianni (Greece)

**Sponsors:**

**Registration deadline: 15th March 2021**
